

# PRESS RELEASE

## Bankruptcy Solo, LLC Opens Office in Saint Charles, Missouri

December 12, 2015

**Saint Charles, MO** – Bankruptcy Solo, LLC, the premier provider of debt relief through bankruptcy, is pleased to announce that it is opening an office in Saint Charles, Missouri. The firm focuses exclusively on helping people file for bankruptcy relief under the Bankruptcy Code. The St. Charles office recently opened in November.

"There is often a stigma associated with filing bankruptcy. However, the facts, according to the Institute for Financial Literacy, indicate that the average bankruptcy filer may look a lot like you. In fact, 58 percent attended college or have a college degree, 79 percent are employed or retired and over 64 percent are married," said Managing Partner, Sharon Centracchio. "For nearly 12 years, I have personally helped a number of clients who filed due to job loss, medical bills or divorce."

Sharon is known for her ability to put her clients at ease and give them the attention they deserve. According to Sharon, "I want my clients to feel as comfortable as possible in such a stressful time. As a bankruptcy client in a small firm, each client receives respectful, prompt, and individualized attention. You will not be competing with different types of clients or a high volume of clients. I purposefully limit the number of cases. I do not do volume business. I work with each case, getting to know each client as a person. The goal of Bankruptcy Solo, LLC is to provide quality legal services in a comfortable and caring environment."
